Tourle Company

Create a Gorgeous, Natural and Comfortable outdoor life.

Tourle tents have always been based on self-built production lines and production technologies. Our chief overseas designers have created original designs, with the most suitable tent fabric and the best quality accessories. Tourle creates a gorgeous, natural and comfortable life experience for outdoor travelers.

WHY DO YOU CHOOSE US

KEEP GROWING

【Annual sales amount increase several times】

After 8 years of operation and development. Tourle outdoor has actively explored the development path of “tent hotel” and made another breakthrough, now tourle have been one of the iconic brands in the domestic hotel tent area.

COOPERATION PARTNER

Boteen has a cooperative relationship with resorts, campgrounds and tourism development departments, and is a leader in future tourism business.

Fabric/material introduction

Cloth Material

Fabric/Waterproof

Oxford material- Beige/PU coating, 3 layers+ waterproof 5000-7000+

Material /fire resistance

USA 84 standard - Both waterproof and fire resistance

Material/UPF protect

UV coating 80-90%, if set up tents without UV protection during hot season, the inner temperature would be very high.

Main pole/ /Galvanized steel pole

Main pole: Galvanized steel pole: Dia 76mm/ Wall thickness 1.5mm;

Color: Inspection after electroplating processing.

Main pole / Solid wood

Dia 80mm, Synthetic anti-corrosion wood, surface polishing, anti-corrosion treatment, anti-aging wood wax oil.

Regular poles/ Steel poles

Regular poles: 83-89mm, steel poles, wall thickness 2mm, strong;
Process: Black, outdoor special painting treatment/argon arc welding (durable under the sun and rain).

Material/ Mildew resistance

Mildew resistance tents have the ability to inhibit mold germination and mycelial growth.

SBS Zipper

All the zipper comes with Brand zipper SBS.

Fabric/Test

Boteen tent fabrics comply with international quality certification. Test items: Waterproof, fireproof, UV protection and other qualified Boteen tents will never use untested materials.

Cloth inspection report

THE FEATURES OF
THE TENT HOTEL

Zero pollution construction: recyclable materials, natural and environmentally friendly

Assembled house: fast construction speed, low cost

High safety performance: wind resistance can reach level 10, tarpaulin B1 fireproof, fire resistance

Beautiful appearance: The tent hotel is designed to be flexible and adapt to local conditions to fully enjoy the beauty of nature

Comfortable and livable: a variety of modern facilities, adapted to the perfect combination of nature and technology

Good investment prospects: compound holiday model of scenic spots + tent camping, emerging tourism trends

SUPPORT SERVICES support services

From tent hotel product design, material selection, custom production, to tent hotel layout, interior planning, interior design, and all issues affecting the accommodation experience, such as ventilation, heat preservation, privacy, safety, etc.,

Camp rules

Boteen has a wealth of experience in the construction of tent hotels and characteristic camps. Before formulating the plan, it can survey the topography of the customer on the spot, and design the most suitable campsite layout plan.

Sun protection

The high-quality PVC tarpaulin used in tent hotel has a certain anti ultraviolet ability, which can well sunshade and sunscreen. In addition, curtains and cloth curtains can be installed in the tent, so that tourists can choose sunshade mode by themselves.

ventilation system

The double-layer tarp design of the luxury tent hotel allows an independent ventilation system to be formed inside the tent, which can ventilate scientifically. At the same time, customers can design the number and location of windows or install other ventilation equipment according to their needs.

Insulation

The design of the tent hotel is ingenious, only the doors and windows are in direct contact with the outside air, so that the internal temperature change always lags behind the outside temperature change. The temperature inside the tent is stable, warm in winter and cool in summer. In addition, air conditioning can be installed.

Hydropower Sewage

Boteen's professional team will design reasonable water, electricity and sewage design drawings based on the construction site for customers' reference. Customers can also choose all-inclusive services to build a tent hotel in one step.

ensure safety

Boteen luxury tent hotel adopts a combined steel pipe structure frame, which can be used safely and stably in different sites. Outdoors can withstand 7-9 level strong winds and carry rain and snow. It is suitable for the environment -20-40°, ensuring safety.

Private issues

The walls of the Boteen Tent Hotel are made of beige Oxford fabric, which is very safe. The window curtains can be pulled up during the rest time to effectively protect personal privacy.

Service life

Boteen Tent Hotel has a long life span of 5-10 years under normal use. In addition, we also provide a one-year warranty period.

Production time

The normal cycle of a conventional tent product is about 25-30 days, but if it is an unconventional standard tent product or a program customization is required, a certain design cycle is required. The specific time is based on the final contract.

Our Hotel tents cases TENT HOTEL CASE

Qingyuan - Pu camp site

The tent made of wood and canvas is located at the foot of the mountain and blends with nature.

THE WORLD IS SO BIG

I WANT TO VISIT

WEIHAI - XIXIAKOU

Share a good time
Witness the greatness of nature

There are sunshine, sea, beaches, islands, and fresh air. Here you can see the most beautiful coast of mainland China, have close contact with the gulls and herons, play with the blue water, and experience the luxurious accommodation of the outdoor masterpiece "hotel tent". Experience is a great choice for families to enjoy a summer beach holiday.

VALLEY OF THE WIND CAMP SITE

AWAY FROM THE HUSTLE AND BUSTLE OF CITIES, GO TO THE VALLEY OF THE WIND TO EXPERIENCE THE LONGING LIFE. THE CAMP SITE OF THE VALLEY OF THE WIND IS LOCATED BESIDE WANLV LAKE IN PINGLING TOWN, LONGMEN, HUIZHOU CITY. THE WHOLE CAMP SITE IS DESIGNED AROUND WANLV LAKE. ONLY TWO HOURS' DRIVE FROM GUANGZHOU, SHENZHEN, DONGGUAN CITY.

JIURU MOUNTAIN CAMP SITE

A wonderful life like a fairy-land starts from walking into nature. The hotel is meticulously prepared and decorated, and every place releases a romantic atmosphere... If you want a high-quality life experience, come on a walk-and-go trip.

XINJIANG NO MAN'S LAND CAMP

In the hinterland of the Taklimakan Desert, the second largest desert in the world, there is an oasis called "a paradise" by archaeological explorers. Little is known because of its isolation. This oasis is full of mystery Daliabuyi.

HOW TO HELP YOU PLAN AND DESIGN?

1

Boteen Outdoor will have professional salesmen to understand the details of your project in all aspects. Require professional engineering personnel to survey and map on site and make site planning.

1

In the Boteen consulting tent, more than 99% of the clients will be invited to the Boteen campView and experience different products, and bind their selected products for camp planning design.

2

Boteen designers will create your own space solution, using 3D models to transfer you. The idea or concept is shown in advance for your reference.

3

Boteen will launch new tents every quarter. Welcome to Boteen to experience it. Outdoors are like home Life, Boteen carves for you.

SERVICE PROCEDURE

Warm and romantic

Make Outdoor life just like home life, Boteen make for youExplore the infinite scenery and appreciate the special hotel

Multiple patented technologies

Obtained a number of invention patents and practical patents, and owns independent intellectual property rights; continuous experiments to verify and improve products.

Integrated services

R&D, design, sales, and construction are integrated services to ensure production quality throughout the entire process; efficient construction team on-site assembly, short cycle, low cost, personalized tent design.

Lifetime technical support service

The design, materials, tent structure, and construction methods are comprehensively improved; the performance of fire prevention, flame retardancy, mosquito prevention, and light weight is excellent; the expert team guarantees lifetime technical support and services.

professional team

The expert team personally inspected the design; designed the tent camp site solution according to the actual situation.

Understand project site planning

- 1 Site planning shall be carried out by engineering personnel with more than five years of experience in field surveying and planning.

Determine the plan and with 3D display

- 2 The designer will create an exclusive space solution for you, and use the 3D model to show your ideas or concepts in advance.

Quotation and sign contract

- 3 Once the plan is confirmed, after detailed accounting, we will provide you with a satisfactory quotation

Production Plan

- 4 Reasonably plan the production schedule, high-precision CNC equipment for efficient production, high-precision technology brings higher-end tent quality

Installation test

- 5 With details for perfection, the professional team will conduct strict quality inspections before shipment, and finally arrange tests to ensure excellent quality.

Global delivery Global direct supply

- 6 Professional logistics team, ready for delivery 24 hours a day, can quickly transport goods to all parts of the country to ensure timely delivery.

On-site construction

- 7 The installation team arrives at the site to build and install, and follow up and maintain the whole process during the event to ensure the smooth completion of the installation.

Installation and acceptance

- 8 After the installation is completed, professional and technical personnel will carry out technical acceptance of the project to ensure the safety and stability of the project.

After-sales support and service

- 9 Provide after-sales maintenance, accessories replacement, inventory replenishment and other services. If you encounter any problems during after-sales use, we will provide you with technical support.
